

New version of ACT Awareness e-Learning now available

Businesses and the public can now complete the new ACT Awareness e-Learning with refreshed modules, mobile optimisation and improved accessibility.

Businesses, voluntary organisations and the public can now complete the updated ACT Awareness e-Learning on ProtectUK.

The award-winning e-Learning provides an introduction to counter terrorism across seven modules, including suspicious activity and items, marauding attackers and bomb threats.

In addition to a new look, the updated course contains refreshed modules, has improved accessibility, and is now optimised for completion on a mobile device.

The ACT Awareness e-Learning takes approximately one hour to complete and can be paused to suit individual needs. Visit the Learning tab and register as a ProtectUK user to access.
